Farm Bureau Official Information

Report Is Made On Hog Cholera Cases in State

Seventeen new hog cholera outbreaks during the month of August, with heavy losses in each case, is the latest report issued by the Wisconsin Department of Agriculture. The disease has been reported from eight counties, as follows:

Grant county, 1 case, near Mtford, Mineral Point, Platteville.

Rock county, 3, near Brodhead, Avalon and Milton Jct.

Green county, 1, near Albany.

Milwaukee county, 1, near Wauwatosa.

Fond du Lac, 3, near Oakfield and Fond du Lac.

La Crosse County, 1 near West Salem.

Folk County, 2 near New Richmond.

St. Croix County, 1 near Spring Valley.

The past history of hog cholera outbreaks from the disease are most numerous, and losses most severe during the fall months of Sept., Oct. and November. Farmers are therefore warned to watch their herds closely for evidence of disease, if some of the animals are not doing well, report the condition at once to the nearest veterinarian, or to the nearest Wisconsin, and as much assistance as possible will be given you. If you are in infected territory don't wait until the disease gets into the herd, eradicate it once, warns Dr. J. T. Purcell.

No herd of hogs, no matter how well kept, or how carefully attended, is safe from an attack of hog cholera unless they are vaccinated. Vaccination properly performed is a cheap and safe form of insurance, but the treatment should be administered while all the animals are in good health. It is a protective, not a curative treatment.

New State Mark Set By Holstein Cow for State

The Murphy farm now owns the junior four year old Holstein cow of Wisconsin. In 365 days she produced 28.35 pounds of milk and \$84.79 pounds butterfat.

Many Farmers List Animals With Bureau

Further replies are being received by Secretary Hugh C. Hemmingway from farmers who have livestock and farm equipment for sale. An exchange list will be compiled in the near future to be circulated in Rock county.

All farmers having stock for sale, grain, seed or machinery are urged to list it with the bureau.

This is at the rate of about 312 miles an hour.

Stone Declares Constables "Tip Off" Moonshiners

Milwaukee—Declaring that constables and other officers in certain counties in the state were not only refusing to give him assistance in enforcing the prohibition laws, but were actually "tipping off" moonshiners and bootleggers on federal raids, James A. Stone, federal prohibition director, Thursday assailed officials of certain counties in the state as in sympathy with lawbreakers.

"I cannot at this time mention names of any of the counties," he said, "but in the near future, if further action on my part becomes necessary, I am prepared to give names and instances where raids failed because of 'tips' given by officials taken into confidence by federal agents."

Tribes Surrender to Spain, Report

Madrid—Ambassadors of Abd El Krim, bearing white flags, have appeared on the Velez de la Gomera front, and announced that, in view of their defeat, they desired to submit to Spain, according to advices received here from Melilla.

BACKUS DEMANDS ANOTHER COURT

Milwaukee—Judge A. C. Backus threatened his resignation from the municipal court bench Thursday unless the bar association does something to prevail upon the legislature to authorize the establishment of another criminal court.

The judge's statement came after the conclusion of a case against Erwin Mason, 31, colored barber shop porter, sentenced to 35 years for an attack upon a four year old girl.

Luther Memorial Sunday in State

Sunday will be Luther Memorial Sunday in Wisconsin. Lutheran ministers throughout the state will base their sermons on the new student church which is being built directly across from Lathrop hall at the University of Wisconsin.

Judge A. C. Backus of the municipal court, Milwaukee, chairman of the campaign to finish the new building, has heralded its erection as a state church, built for the sons and daughters of men and women all over Wisconsin.

It was this thought that prompted the ministers to unite in basing their sermons on Luther Memorial. They will discuss the relationship of the new church to the student community.

Luther Memorial has already ministered to 5,000 students. For the past two years it has been necessary to employ a full time secretary to take charge of the student work. The opening of the new church, however, will necessitate employing two or three additional student secretaries, giving the work much more scope, as well as making possible a clear cut Lutheran program of student activity that would not have been thought of in the old building.

WHICH DO YOU WANT

Get More Eggs this Fall and Winter!

The one great mistake most poultry raisers make is in the idea that scratch feeds make eggs, and this accounts for their failure to get eggs in the winter and fall.

Scratch feeds do not make hens lay. Just so long as you make scratch feed the bulk of your hen's ration, you will fail to get eggs. Scratch feed is for the hen's bodily maintenance—to make her exercise, scratch—to satisfy her while on the roost, and not to make eggs.

The feed that will make hens lay abundantly must be a soft feed, finely ground and correctly balanced—a feed composed of materials like hens pick up in the Spring, when their egg production is highest.

FUL-O-PEP DRY MASH

The Great Oatmeal Poultry Feed

is that kind of a feed—compounded along nature's lines—made solely to make hens lay. It is a combination of proven egg making materials with several other valuable ingredients which come as near nature's egg-making food as it is possible for expert knowledge, science and experience to produce.

To get more eggs, Feed FUL-O-PEP DRY MASH—all your hens will eat. Keep it where they can get it all the time, and feed Ful-O-Pep Scratch Feed about an hour before they go to roost—then you'll get eggs and lots of them. We guarantee it.

The National Advertisement

"People in this country dress much better than they do in England," declared the manager of a great London store while here on a visit. Let's take this as something more than a compliment to our good taste—although that is vastly worth while. Well-dressed America is symbolic of the spirit of the nation—the outward expression of the self-respect that animates every American.

Good clothes are the national advertisement of the national pride. And thanks to our prosperity, good clothes are within the reach of every American.

Cozy Glow Time Is Here!

Little Brother to the Coal Pile! In the early days of fall, in winter, and in spring, the Westinghouse Cozy Glow fills a positive need and comes nearer to being an all-year-round heater than you can realize unless you have one. The

Westinghouse

Cozy Glow isn't a fire. It makes no fumes, nor does it stale the air. It's perfectly safe even if upset. It throws the heat in any direction—a cozy glow when and where you want it.

Pick it up and carry it to the room or to the corner that is chilly. Or send one of the youngsters to get it. Like all Westinghouse Heating Appliances, it makes a lot of heat for its weight. It's a convenience, of course, but a winter necessity also. Get a Cozy Glow now from one of the following dealers, and have warmth when you want it right through to next summer.

PLENTY OF REST ROOMS PROVIDED

Comfort Facilities Offered to Thousands During Two-Day Celebration.

Everybody has helped to make the Harvest Festival a big success. Even a dozen high school girls were busy Friday morning at the Chamber of Commerce sorting up the programs into bunches for distribution about the city. In all every lamp post in the business district had its quota of programs conveniently placed for the information of the public.

Head Janesville has opened its public buildings in the most hospitable way to take care of tired humanity on these two eventful days. Rest rooms are conveniently located and are seemingly adequate for every demand. In some cases trained nurses are in attendance for emergency cases.

The largest of these is taken care of by the Y. M. C. A. in the Bower City Implement company building, with Mrs. Allen Lovejoy as head of the committee and Miss Marion Hamlin as secretary in charge. Here there is a spacious room containing six cribs, a "kiddle coop" and a cot, screened from the main rest room by curtains. Miss Alice Glenn and Miss Helen Anderson are in charge of the room. The girls' rest room is also in the Y. M. C. A. building and is open for the use of the girls' rest room.

Janesville Center, with Mrs. Margaret Belding in charge, will have coffee and tea served and will be open to the public.

The City Federation of Women has taken over the Rock County Telephone company building on South Jackson street for a rest room. Here tea, coffee and milk will be provided and people will have a chance to eat their lunches. Here is also a cot in a rest room for those tired by the day.

The Y. W. C. A. is also in charge of a rest room in the Bower City Implement company building. Here tea, coffee and milk will be provided and people will have a chance to eat their lunches. Here is also a cot in a rest room for those tired by the day.

The funeral of Mrs. Lottie Peterson will be held at 2 p. m. Saturday from the home, 1229 Ruger avenue. The Rev. Mr. Jordan, Milton, will officiate. Burial will be in the Richwood cemetery. The O. E. S. will take charge of services at the grave.

Four Bands Play for Festivities; Concert Feature
Four bands were on hand Friday for the festival, three of them the Edgerton, Broadhead and Rockford Killies bands—playing on the streets during the forenoon, participating in the parade and furnishing music at the fair grounds.

Novelty was provided by the Rockford Killie band of nine pieces, managed by John Macdonald. The Broadhead City band has 23 pieces and a drum major, and is directed by "Doc" Porter. The Rockford Killies are directed by the famous Elkhorn Boys band, the Luther Valley band and the Rockford Killies. These three also will participate in the parade Saturday at 2 p. m. The Killies will play at the fair grounds during the afternoon. From 6 to 7 there will be another massed concert, this time in the park.

Permanent dances both nights will be on North Bluff street and in front of the city hall. Mr. Sartell is arranging to have 15 pieces of the Bower City band at each dance.

PLAN THE PROGRAM OF LEGISLATION

Going Through with the Radical Changes in the Legislature.

[BY ASSOCIATED PRESS.]
Madison.—A legislative program of vital importance to Wisconsin is under consideration by administration leaders of the assembly and senate who plan, before the session convenes on Jan. 10, to have a definite course of action determined upon. Enactment of measures calling for radical changes in the basis of taxation is predicted by the progressive members of the legislature.

Members of the senate and assembly here followed the republican convention expressed the opinion that the tax program fostered by the administration during the last session would be enacted into law during the 1923 session of the legislature. They pointed out that there was little likelihood of a changed attitude within their forces. Just what the attitude of Gov. J. J. Clark will be toward some of the proposed measures should they pass both houses, is somewhat in doubt. He is believed to be of the opinion that the tax situation now confronting the state is much different than during the previous six years.

Raising the Revenue
The halt in administrative expenditures due to the forced economy by the state has placed a different complexion upon the tax problem. The revenue is said to feel. With an increase in taxes necessary, he is thought to believe it a matter of policy just how the revenue is to be raised.

Specific references to definite changes in the state tax law is left out of the platform adopted by the republicans, except in one instance when repeal of the secrecy clause to the income tax law is asked.

Members of the legislature who led the tax fight in the last session say that they contemplate no amendment to their program which calls for repeal of the personal property tax, increase of the income tax, increase of income tax rates on higher incomes, raise in exemptions from income taxes, provision for a surtax on incomes over \$5,000 to raise revenue for the university, normal schools, common schools and highways.

Unemployment Insurance
Another proposal to be brought before the legislature by administration leaders is the Huber bill providing for workmen's unemployment insurance. This measure, introduced during the last session by Senator Henry A. Huber, calls for state insurance against unemployment in industry. All administration senators supported passage of the bill at the last session and with control of the upper house at the coming session, they predict passage at the coming session.

This would mean that Wisconsin industries would be required to insure employees who have been in their service a specified length of time against unemployment. The measure would pay a small weekly wage, under provisions of the measure, which has the active backing of the Wisconsin Federation of Labor.

"HOT LIPS" MOST POPULAR DANCING HIT, SAY DEALERS

"Hot Lips," a new fox trot seems to be the most popular dance number on the market in September, according to Janesville music dealers. Both on phonograph records and in sheet music, the piece leads in sale all other selections. "Hot Lips" is perhaps played by more dance orchestras than any other selection, with the possible exception of last month's favorites, "Stumbling" and "Georgia," which continue to hold their popularity.

"The Dancing Fool," in sheet music, is having an enormous sale at the shops, while "Honeydew," a new Irving Berlin hit, promises to rival "Some Sunny Day" and "Lovable Eyes." "State Street Blues" and "Lovable Eyes," "Wabash Blues," indicates that it may be even more popular than the Irving Jones sensation.

Gene Rodemich's orchestra of St. Louis, noted for "Home Again Blues" and "April Showers" is recorded on the Brunswick records for September and is still delighting dancers. William's artists are being heard on Victor records, while the Columbia people announce the recording of the famous Knickerbocker orchestra. Janesville people will also be interested to know that Frank Westfall's aggregation is now recording for Columbia. Westfall is at the present time playing at the Rainbow Gardens in Chicago and will also be interested to know that Rickards who played several years ago at Pelican lake.

The most popular Victor records are: "Hot Lips" and "Send Back My Honey Man"; "Dancing Fool" and "My Rambler Rose"; "Oogie, Oogie, Wa Wa Wa" and "Sweetie Pie"; "Dum"; "The Sneak" and "Are You Playing Fair"; "Kicky-Koo" and "A Sleepy Little Village"; "Nobody Lied" and "Yankee Doodle Blues." The most popular Brunswick records are: "Birdie and Yankee Doodle Blues"; "Oh, Is She Dumb" and "Nobody Lied"; "Georgette" and "Keep on Building Castles in the Air"; "Bamboo" and "Broken Hearted Blues"; "Next to the South Sea Moon" and "It's Up to You." The most popular Columbia records are: "Neath the South Sea Moon" and "It's Up to You"; "Hot Lips" and "Love You Sweet Angel"; "Don't Bring Me Roses" and "State Street Blues"; "Kitty on Keys" and "Bunch of Keys"; "Nobody Lied" and "I Had My Way"; "Pretty Baby"; "Say It With Dancin'" and "Georgette." The most popular sheet numbers are: "Hot Lips"; "Lovable Eyes"; "Georgette"; "Homesick"; "Dancing Fool" and "Good Morning."

WEATHER BOOMS PAVING ACTIVITY

Ringold Street Job Nears Completion — Finish Cemetery Drive, Saturday.

Aided by weather of the past few days, paving work on Ringold street is progressing at a rapid rate, according to C. V. Kerch, city engineer. The first of the three block stretch on Ringold from St. Lawrence avenue to Second street, was completed Thursday, leaving two blocks from Second to Third and from St. Lawrence to Burger avenue still to be completed. The two remaining blocks have been subgraded and should be finished within the near future.

The paving stretch in Oak Hill cemetery is expected to be completed Friday, said Mr. Kerch. Although the finishing touches to the job were being attended to Friday, the work may not be cleaned up until Saturday.

Workmen of the city water department are now finishing the laying of 200 feet of water pipe on Richardson street from St. Mary's to Elaine. The first part of the job was done by the Frank Cay Co., Waukegan, which has since left the city. Work on the laying of mains on North First street will probably start next week.

Edgerton

The funeral of William Wachlin was held at 1 p. m. Thursday at his home, four miles west of Edgerton, with the Rev. J. C. Spilman, St. Joseph's Lutheran church, officiating. Mr. Wachlin, with his wife, came to this country from Zommern, Germany, in 1880, settling near Edgerton and has resided in that vicinity ever since. He is survived by his wife and 10 children. All married except two boys, Arthur and Fred; one brother, August, one half brother, Mr. Miller and one half sister, Mrs. Brown.

City's Theaters Packed on First Day of Festival
Janesville's four theaters are offering excellent entertainment free until 11 o'clock on Friday and Saturday. Doors were opened at 11 a. m. Friday at the Apollo, Majestic, Beverly and Myers. Shows will run continuously until 11 p. m. Friday with the same program on Saturday.

While crowds were rather small from 11 to 2, after that hour crowds began packing into each of the houses. Street attractions kept all occupied until 11 p. m. Friday.

The Harvest Festival promises to have the same pleasant fault that a three ringed circus has—a person cannot see everything at once. Meals will have to be abandoned if the whole program is to be taken in.

MISS PREMO RUNS FIRST FOR QUEEN

Lead in Big Contest Changes Hands—Miss Killefoth Is Close Second.

With a grand total of 10,506 votes, Miss Lillian M. Premo, of the Gazette advertising department, is in first place in the big Harvest Queen contest leading her nearest competitor by a margin of 1,304, having advanced from third to first position on returns compiled by the contest committee at the Chamber of Commerce, Thursday night. Included in her total vote are 1,000 votes given free for gaining 6,306 votes from Tuesday to Thursday, the greatest gain made by any candidate.

Miss Lillian Killefoth, of the Rock County National bank, who was leading on Tuesday night's count, dropped into second place with 9,202 votes, while the third place was checked Thursday. She is making a great run and many predict she will come through a winner on the final count, Saturday night, and be awarded the \$175 diamond ring, first prize.

Miss Young Is Contender One of the strongest contenders in the race is Miss Helen Young, McLeellan's store, who polled 3,512 votes from Tuesday to Thursday thereby pushing her up a notch into third place with a grand total of 5,519. Close behind her is Miss Margaret Earle with 3,283, while Miss Gwendolyn Carmen is fifth, with 1,993.

Miss Myrtle Morton and Miss Alice Connell are tied fourth with 1,367. It is reported several candidates are holding back votes planning to turn them in in large quantities a few hours before the close of the contest at 6 p. m. Saturday. This is spurring the leaders on to their greatest efforts and everyone in the city is being solicited to buy the penny votes. Proceeds will go toward defraying expenses of the big Harvest Festival and Harmonizing.

Queen in Parade The winner will be crowned queen of the festival and will ride in the parade at 7 p. m. Saturday night. A Victoria, cedar chest and Apollo theater annual pass go to the winners of second, third and fourth places respectively. The last count of votes will be held at the Chamber of Commerce at 6 p. m. Saturday.

The candidates' total votes up to Thursday night follow:

Miss Lillian Premo	10,506
Miss Lillian Killefoth	9,202
Miss Helen Young	5,519
Miss Margaret Earle	3,283
Miss Gwendolyn Carmen	1,993
Miss Myrtle Morton	1,367
Miss Alice Connell	1,367
Miss Dolly Jones	1,361
Miss Louise Ford	1,203
Miss Marion Ryan	1,126

Miss Lillian Dulin 1,040
Miss Nan Sorenson 1,038
Miss Mary Connell 1,015

IDEAL WEATHER MARKS OPENING OF GREAT FETE

(Continued from Page 1.) of the day. Early in the forenoon floats began to take their places in the sections set off for their formation. The Chamber of Commerce moved its headquarters for all activity. Rest rooms were waiting the arrival of children and women. At the restaurants preparations were made for feeding large crowds.

A more elaborate setting has never been seen in Janesville. Old residents, men who have been here since "way back when" had never seen the city so decorated and said so. There seemed to be a new spirit in Janesville. There was little grief for the committee to face. Praise and approbation was general. The sun added to the brilliance of the street decorations and the light breeze made the day more comfortable. Flags fluttered just a little, giving the scene greater animation.

THE GAZETTE'S PLATFORM
Head every energy to finish the high school
building so it may be used before the end
of 1922. With the completion, the problem
of a community center will be solved.
Janesville needs and should have ample
facilities to care for the public. That will
be especially true when the high school is
completed. The auditorium is available
for the largest conventions.
Finish the paving of Janesville streets as
soon as there can be the necessary funds
located in taxation so as not to place a
heavy burden on the people.
Light the city park. There is now available
the city park. It should be lighted and it should
not be used for any purpose. Finish the city
and county plans.
Historical Building for World War soldiers,
the living and the dead—to be also an
historical building.

PARTY PLEDGES AND THE SERVICE MEN.
Action of the senate in sustaining the veto of
the president by only a few votes was expected.
It had been made public days ago that a narrow
margin for the president's position would be
obtained. There were not enough democrats to
go with the republicans for the bonus to secure
the needed two-thirds record. Democrats had
pledged themselves in the platform adopted at
San Francisco for the "enactment of soldier set-
tlements and home aid legislation which will
afford to the men who fought for America the
opportunity to become land and home owners under
conditions affording genuine government as-
sistance unencumbered by needless difficulties of
red tape or financial investment."

That was the democratic platform pledge. The
nearest to carrying out such a pledge, presented
for their support, was the bonus bill vetoed by
the president. The republican platform declares that
"We pledge ourselves to discharge to the fullest
the obligations which a grateful nation justly
should fulfill in appreciation of the services ren-
dered by its defenders on sea and land."

What are the "fullest obligations"? Congress
has interpreted the phrase to mean something in
the form given concrete determination in its bonus
law. President Harding during the campaign for
the presidency so interpreted it in his public
utterances. The nation so construed the pledge.
It also asked the direct question of democrats as
to what the pledge in their platform actually
meant in terms of legislation. It was never for
a moment believed by the general public that we
were not to have a bonus measure. There was
no anticipation of a failure to carry out the plat-
form pledges. From the day President Harding
went into office it was justly understood that
we were to have a bonus law. It was a funda-
mental part of the republican platform and the
spoken policy of the elected candidate. Only
when the financial difficulties began to take the
first place and we were confronted with the fail-
ure of the administration to cut expenses and
that we had an enormous legacy of debt from the
former administration did we begin to make the
bonus an issue.

The obligation of the republican party was just
as great in the matter of the bonus, just as bind-
ing and just as much a part of the program of
1920 as was the passage of a tariff to correct the
economic disaster we faced from the Underwood
tariff when the war broke and we were saved
from the flood of European products coming in
under the free list. We have passed a tariff bill.
It is a hedge-podge, a creation of compromise and
trades, the result in part of local demands for
protection. But bad as it is, and vulnerable as
it is to attack, it is a far better measure than the
free trade law which it supersedes.

The statement that our financial condition has
grown worse instead of better does not seem to
be borne out by the facts as reported from day
to day by the secretary of the treasury. The re-
sponsible maker of these reports was an advocate
of the cancellation of the debts we owe to Europe.
That is twice as much as would pay the bonus.
There is a deep inconsistency in that attitude.
If we are so badly off in a financial way as we ap-
pear there is need of immediate, drastic atten-
tion to national finances and not to use a bad sit-
uation, capable of remedial action, as an excuse
for failure to discharge to the fullest "our obli-
gations" to the service men.

MORE ROOM FOR OFFICE HOLDERS
"Room! More Room!"
It is not the cry of the herald to make way for
the approaching Royal Nibs but a wall from the
Roll Top Buttery of the Swivel Chair Fleet at our
noble state capitol.

We have so many officers that we may have to
set 'em out on the asphalt approaches and get in
the way of the governor's lovely limousine. We
have just got to have more room for the state
government. There are 99 many hungry mouths
and so many needy inspectors of ash cans, ice
cream parlors, barber shops, hay scales, lemon-
ade dials, potato bins, etc., ad libitum, ad nau-
seum, ad burdensome, that the dream dome of the
capitol will not cover the broad hatched daily be-
neath its Etruscan purity.

There is a hugacious brick building as you ap-
proach the intense business center of Madison
on the left as you go up to King street, from the
deppo. It is filled with office holders. It is the
Little Capitol. It holds the overflow. But there
is more overflow. Political debts have to be paid.
Ergo, let the state pay. Get them on the payroll.

MOTORS TO THE RESCUE

By FREDERIC J. HASKIN

Washington.—If railroad strikes again should
become troublesome, the same thing may happen
in this country that has happened in England.
The motor bus probably will gain and keep on
important place in our transportation system.

Interurban buses, operating over short routes,
already have proved popular with the commu-
nity. In some parts of the middle west, where
the railroads were compelled to curtail their
passenger service, bus lines have been in-
stalled, while the National Automobile Chamber
of Commerce has a list of 500 motor truck lines
which were prepared to aid in the event of a
transportation crisis.

It was just such an emergency, resulting from
a prolonged coal strike, that caused the sudden,
rapid spread of motor bus travel in England,
which this year is attaining large proportions.
Virtually a revolution in transportation methods
may be said to be now under way in the British
Isles. Where the petrol engine is challeng-
ing the steam engine, with the result that the
railroads are beginning to experience some of the
apprehension suffered by the stage coach lines
many years ago. Motoring is no longer merely
a pleasure enjoyed by those Britons who can
afford to buy and keep automobiles. It has be-
come a cheap and convenient means of travel for
the multitude, as well as the most important factor
in the movement of freight.

The rise of the auto bus actually began, of
course, immediately after the war, which had
demonstrated the practicality of transporting
large bodies of men as well as heavy stores of
supplies long distances by motor. In the northern
and western parts of France were great battle
areas, remote from railway lines, that could be
reached only on foot or by motor. In the cities
were gathered many relatives of soldiers and
many of the men themselves, who wished to visit
certain places in the devastated areas. The situa-
tion called loudly for motor buses, and it was
not long before they were provided. Several
companies were organized, composed largely of
ex-soldiers, for the purpose of conducting tour-
ists over the battle fields by motor.

Thus the idea of long-distance motor bus sight-
seeing was born. From France it quickly spread
to England and in a short time, we are told, a
company had sprung up which was operating bus
lines upon regular schedules all over Kent. They
went as far south as Dover and Folkestone, as far
west as Margate and Ramsgate, and as far east
as Maidstone. The buses were so popular and the
company made so much money that others were
inspired to start similar tours in other parts
of the United Kingdom.

This was in 1920. But it was not until the
spring of 1921 that the motor bus really came to
play an important part in British transportation.
In March of that year the coal miners went out
on strike, and the railroads, never in an extreme-
ly robust condition, gradually collapsed. Not only
did they fail to transport the coal, but the num-
ber of trains, but all express, dining cars and
drawing rooms were taken off. This service
became so bad that passengers often were forced
to stand for eight and nine hours at a time. In
these circumstances, it did not take the bus com-
panies long to realize that their golden opportu-
nity was at hand. Immediately they began to
advertise the greater convenience and comfort of
motor travel, and to extend their tours in all di-
rections until it was possible for a passenger to
travel into any part of England, Scotland, or
Wales in one of their vehicles.

They also established an excellent baggage ser-
vice, the absence of which had hitherto been a
considerable drawback to motor bus travel. They
advised that they would allow every passenger
on their cars who bought a return ticket a certain
amount of baggage carried free—usually about
the same amount that could be carried on a
railway ticket. This baggage had to be delivered
at the company's offices an hour before starting
time. There it was loaded on a truck and sent
ahead of the passenger bus, so that when the
passengers arrived at their destinations they found
their baggage awaiting them.

As the coal strike continued and the railroads
grew less and less efficient, the popularity of the
buses grew. It was greatly increased, moreover,
by a reduction in the bus fares until they were
slightly below the first-class fares on the rail-
roads. As a result, the bus lines were swamped
with more business than they could handle, while
toward the end of the strike scarcely anyone was
using the railroads except in cases of absolute
necessity when they could not get a bus.

The disconcerting feature, from the railroad
standpoint, is that this popularity appears to be
permanent. The railroads, now back to their
normal service and schedules, have not recaptured
all of their old business. Wherever possible,
the people seemingly prefer to use the char-a-banc
which is the French term the English have given
the motor bus.

This is especially true of holiday travelers and
tourists, who find it more enjoyable to journey
along the open road, past fresh, rustic scenery,
than over the prosaic, level grade taken by the
railroads. Seen from the char-a-banc, every mile
of open country has its point of interest—some
weather-beaten church, the ancient ruins of some
mysterious castle, or a stretch of fine wooded
park. For those who know English history and
literature, the path is strewn with reminders of
famous characters and events of real life and fic-
tion. For others there is the gypsy lure of the
open road, which has definitely captured the im-
agination of the proletariat. The British working
man regards the char-a-banc as an invention for
his own special diversion, and buses crowded
with tourists from the big industrial centers are
nowwhithering all over the realm.

The ability of the char-a-banc to go anywhere a
private automobile can go is not without its
drawbacks, of course. Places which have hitherto
enjoyed a quiet, peaceful life, have been thrown
into a sudden turmoil of excitement and industry,
very bewildering and distasteful to their inhab-
itants. Other places which relied upon their in-
accessibility to attract fashionable, well-paying
guests have had their chief asset destroyed by the
wandering char-a-banc excursion parties. But the
occasional walls of indignation from these in-
vaded districts are promptly drowned out by the
loud-roared approval of the majority.

Opposition of the railroads has proved un-
availing. It has become rather intense of late
since the motor bus companies have become im-
portant competitors not only for the passenger
business but for freight. This is also a develop-
ment of the strike, during which British business
men discovered they could often ship their goods
more economically as well as more expeditiously
by motor lorry. When the strike was over they
continued to heed this lesson. So a large number
of British firms are using motor transportation
almost entirely. Some of them own and operate
their own lorries, while others contract with the
new commercial trucking companies to do their
work for them.

The Associated Press carried the news from
Madison that more room just had to be had to
carry on the state government. We have so many
new bureaus, so many more inspectors and petty
office holders that each must have a roll top and
a swivel chair and room, bless us, yes—room for
swinging the feet.

JUST FOLKS

By EDGAR A. GUEST.

WORDS.
Words have a beauty and silver lark.
Kind speech can raise the faltering soul again.
Can bring the long lost wandering brother back
And soothe the trouble breast of all its pain.

Words can make bright the eye of him who
reads
A few good phrases scribbled on a page;
Can give the joy the waiting mother needs
And tint with love the loneliness of age.

Words can do much more in the darkened room
Where sorrow sits to mope and brood;
How feeble in the daylight and the gloom
Our faltering words of sympathy appear!

Personal Health Service

By WILLIAM BRADY, M. D.

Noted Physician and Author

FOOD AND
A mother asks whether a baby's diet
has anything to do with deceiving
teeth, puer baby, two years old, was
nursed on certified milk diluted with
hotted water and modified with lime
water and milk sugar. At present he
takes the milk "almost clear." She
says, and besides he takes an egg
sauce twice a day, and a little meat-
roni, potatoes and bread, but no meat
of any kind. He drinks three pints
of milk daily, and some castoria
"when necessary."

Is this the best food? It is ad-
mission that the baby's food is in-
adequate.

A healthy baby ought to have his
milk not "almost clear," but undiluted
and unmodified by the eighth or
ninth month of age, as a rule, and
surely by the time he is a year old.

A healthy baby should be given
beef, mutton or chicken broth two or
three times a week from the time he
is six months old.

A healthy baby should take a tea-
spoonful or two of fruit, and gradually
a little more, of any fresh vegetable
each day, from his first month, the
vegetables being thoroughly cooked
and strained through a sieve. Per-
haps this is the important item lack-
ing in the regimen described by the
mother of this two year old baby.

Vegetables are necessary for the body
(furnish lime (calcium)), salts, and
the teeth are chiefly built of lime
salts.

Whether a deficiency in vitamins
in the regimen has any bearing on
the baby's condition is doubtful. In this
instance, I am unable to judge. Lack
of vitamins in the diet of a baby is
commonly responsible for faulty de-
velopment of the teeth. The ex-
cessive use of milk, fruit, and veg-
etables, but probably the egg is a re-
cent addition to the child's diet and
probably the certified milk was too
greatly diluted when the baby was a
few months old, and he has been
suffered from a lack of vitamins.

The mother says nothing about
fruit juice or fruit pulp (cooked in
the baby's regimen). The babies
should always receive a few tea-
spoonfuls of any fresh fruit juice
once daily from the age of three to
four months. Orange juice, peach
juice, grape juice, tomato juice,
or canned tomato, berry, juice,
cherry juice, apple juice, or perhaps
least valuable of all, steamed pruned
juice. After the tenth month cooked
fruit pulp should be given. Fruit
pulp should be given only in the
fresh state. There is another im-
portant source of vitamins which are
so necessary for the normal nutri-
tion and growth of a normal baby.
Of course a baby blessed with a good
stomach.

Q.—Several years ago an Indian
peach seed was planted and this year
it bore its first fruit. Part of the
fruit on the same twig is the Indian
peach and part is October plum. This
tree has not been grafted or budded.
What were the two kinds of fruits?
W. C. W.

A.—The Department of Agriculture
says that what you describe is
classified as a sport. Occasionally a
peach tree produces fruit of this
kind. They think that it is not a
grafted tree, but a sport. It is a
peach tree with a plumlike skin. The fact that the tree was a
seedling partly accounts for this be-
havior, although such sports cannot
be inherited. It is not known
definitely that if the roots had been
budded with some other variety, this
sport would not have been the result.

Q.—Can eggs that have been put
down in water and moved safely
from one place to another in an auto-

A.—The Poultry Division says that
eggs which have been preserved in

not to crack any of the eggs as the
broken ones will spoil the solution.

Q.—What is a toybox?—A. J. C.

A.—This is a small table with one
or two rows of drawers, so called in
contradistinction to the tallboy or
double chest of drawers. Both were
favorite pieces of furniture in the
eighteenth century in England and
America. The toybox was generally
used as a dressing-table, but occa-
sionally as a side table.

SEA DREAMS.
(By Charles H. Towne)
There is a world beyond the crashing
sea
Where my true love dreams now, I
know of me.
For in this hour we vowed that we
would send
A silent message to the earth's far-
end.

Love needs no language! Lovers, each,
to each,
May speak without the imperfect link
Of speech!
I hear a voice in every wind that
blows,
And in a whisper every tide that ebbs and
flows.

And in the sky I see a long-lost face:
(And one sees mine from that remot-
est place).
There is a whisper borne across the
sea,
For somewhere my true love speaks,
now to me.

COMMITTEE OF 44 TO CONTINUE WORK

Political Education for 1924
Primary Will be Carried on.

Madison — The Citizens republican state conference, actively carried on by the Committee of Forty-four, is to continue political educational work in Wisconsin during the next two years in preparation for the 1924 primary. George Skogmo, secretary of the Committee announced.

This organization which fostered the candidacy of the ticket of state officers opposed to Senator Robert M. La Follette and his ticket during the Republican primaries, intends now to bring its plans and principles before the public in an effort to change their political inclinations.

The Committee of Forty-four recently announced that it would decline to foster any independent candidates in the coming general election.

In its declaration of principles to be presented upon Wisconsin elections, the organization takes the stand that:

1. It is the first duty of American citizenship to elect and elect the American system of constitutional government.

2. All class appeal, all demand for special privilege or favoritism for classes or individuals in politics or government and all schemes for class or group or individual domination of the people, whether under the names of Socialism, Bolshevism, Communism or whatever, are inimical to the welfare of the public and constitute a sinister menace to the future of the country.

3. The failure of the government to attain its highest objects should be acknowledged and measures to eradicate the causes of just criticism and discontent taken.

4. The political party is a necessary instrument for effective progress in government.

LIMIT COLLEGE TO MENTALLY ALERT, IS EDUCATOR'S PLEA

Minneapolis, N. H. — Opportunities of higher education ought to be increasingly restricted to an aristocracy of brains, composed of the intellectually alert and eager, if democracy is to become a quality product rather than one of quantity. President Benet Hopkins of Dartmouth college said in addressing the student body at the opening of the academic year today.

"Too many men are going to college," he declared.
"Too often men reputed to be seeking an education are only seeking membership in a social organization which has a reputation for affording an education," President Hopkins interjected.

MODERN HOUSING PLANS NO CHANGES

No Further Home Building
Work, at Least Not at
Present Time.

That the policy of the Modern Housing Corporation in Janesville will be continued without change, at least for some time, was the statement made Thursday by L. A. Markham, head of the personnel department of the Samson Tractor company.

"The housing situation in Janesville has been taken care of," said Mr. Markham. "If a spirit of cooperation is shown by local residents."

The housing situation, a unit of the General Motors corporation, said Mr. Markham, will not change its policy of building program in the city until the situation becomes so acute that such steps will be necessary. The employees of the Chevrolet plant and the Fisher Body company, provided that industry locates here, will not be in such large numbers that a steady building program will not be sufficient to accommodate all.

More than 140 houses are now owned by the Modern Housing corporation in its three districts — Blackhawk, Overlook Heights and in the Second ward. According to Mr. Markham, enough property is available to erect 600 new homes.

Seventy-five houses in the city of Janesville are now vacant, according to a report received by Mr. Markham. This number is exclusive of light housekeeping rooms.

Chevrolet officials in a statement made Wednesday said that if their employees are victims of profiteering it would mean a decrease in the schedule instead of an increase.

Mr. Markham branded as absolutely false the statements that tenants in the houses owned by the Modern Housing corporation had received notice to vacate to make room for new employees of the Chevrolet plant.

GOMPERS LAUDS STRIKERS

[BY ASSOCIATED PRESS.]
New York — American workmen who strike because of the encroachment on the standard of living ought to be lauded instead of criticized, "be-

cause they are turning the tide from industrial depression to an era of prosperity," said Samuel Gompers, president of the American Federation of Labor, before the Civilian club of New York.

BASEBALL, RACES, SOCCER FOOTBALL, HORSE SHOE MEET

Two baseball games, a soccer football contest, bicycle and pony races, and 14 foot races, besides a southern Wisconsin horse shoe pitching tournament and a cavalry exhibition—these are on the numbers of the sports program for the two days of the harvest festival and homecoming. Tugs of war are also planned.

At 3 p. m. Friday, the Black Cats, champions for 1922 of Janesville, answered the call of Umpire Jack Woolton formerly of the Sampson Tractors, and accepted the war with the Blues. With the Howdy Daps determined to make up for three previous defeats at the hands of the Felines, the game took on an early tinge of fierce scrambling.

Contracts were received Friday morning assuring the game Saturday between the Edgerton and Evansville clubs at 3:30 p. m. While the Tobacco city has defeated Evansville once, the Blues are determined to break a reopening of the old time rivalry between these two cities. Hundreds of rooters from both places are planning to come to the game to cheer the six with their cries of encouragement and shouts of denunciation.

A soccer game between Janesville and Rockford is slated for 2 p. m. Saturday. The game is an old sport into the city for the first time. Both elevens are composed of seasoned amateurs.

Horse Shoe Tournery.

Ten courts at the fair grounds were occupied Friday afternoon with a gallop of shoe pitching. Men from Evansville, Magnolia, Albany and other cities and enthusiasts from Janesville, were fighting for places in the second meet of its kind held here this year. An array of 25 merchants prizes were being fought for with ringers being made in large numbers. This department is under joint supervision of Joseph Denning, Sr., and Ralph Soulmun.

Bicycle races for boys and girls have been revived by the festival. One is to be held each day. Several pony and dwarf horse races drew a number of entries. Foot races and novelty events for boys and girls were held on the mile track in front of the grand stand. A. E. Bergman and E. S. Lamoreaux were taking care of those specialties.

Footville Again Issues Challenge to Black Cats

Footville, through its manager P. C. Palmer, again challenges the Black Cats of Janesville to a game or a three game series. He says:

"We have challenged the Black Cats for the simple reason the first game we played against them, we certainly had an off day and the game was called in the eighth by a fourth out score. 5-2."

"Footville was a bat with one man out and two on the bases. Footville was at bat with one man out and two on the bases."

CAN the Pirates win the National league pennant? It does not seem probable, but it is not out of the realm of possibility. The sum is true of the St. Louis Browns. Baseball is such an erratic game of chance when it comes to predicting what a team may do, that at the present point the winds of the 1922 major league season looks as if it will prove one of the most exciting in years.

THE NEW dispatches bring forth the information that Denny Leonard will not be able to meet Charlie White as per schedule. Leonard appears to have a peculiar way of falling ill, or needing operations, just before some scraps. It is getting to be such a habit with him that it arouses curiosity.

GOOD news comes with progress on the new high school. That is the statement by Superintendent of Schools Frank O. Holt that compulsory physical training will be part of the curriculum. It will not be a grueling program, but one built around the play idea with competition as the keynote. Opening of the new school building in the future will be a momentous occasion in the athletic history of the city.

A STORY from the east tells that at the request of Leonard-Tender fight, promoted by Rickard, a seasoned old man, trying to enter without a ticket, was thrown out. That man was Battling Nelson, whose 42-round battle with Joe Gans was the start of Rickard's fortune. Some may call it ingratitude. Others just call it fate.

THERE is one difference between the professional and the amateur that is all too true. The professional who is playing under the big tent realizes the value of a steady diet of training. The amateur is apt to forget that he must grind away to keep the pace, and slacken. It behooves the "simon pures" to overcome this drawback.

15 More Swell Evansville Grid Candidates to 30

Evansville.—Fifteen new men answered Coach Spang's second call for football material at Evansville high school Thursday, bringing the total out for practice up to 30.

Setting up exercises were given the new material to limber them. Line candidates were set to work blocking and later ran down punts. Barum and Libby did the punting while backfield men did the catching. Practice ended with signals by first team candidates. Roberts was at runner. Barum, Atfull, and Cain and Libby at the halves. Center was held down by Hyne, a new man, who has showing a fighting spirit.

Evansville's first game will be with Fort Atkinson at the Fort, Oct. 7, which will be a fight for the locals. The schedule to date follows:

Oct. 7—Fort Atkinson at Evansville.
Oct. 14—Stoughton at Evansville.
Oct. 21—Monroe at Monroe.
Nov. 4—University High at Madison.

Other games will be with Janesville, Elkhorn, Whitewater, Jefferson and Milton Union.

Sisler Best A. L. Player

St. Louis.—George H. Sisler, brilliant first baseman for the St. Louis Browns, who Thursday was awarded the American league trophy offered by the club owners as a reward to the player who proved of the greatest service to his team during the 1922 season, declared to the Associated Press Friday that he hoped to duplicate his feat next year.

Sisler's name will be the first inscribed on the \$100,000 baseball monument to be erected by the American league in East Pelham park, Washington, D. C., and presented to the government as a memorial to the national sport and a hall of fame for perpetuating the memory of its greatest players.

The St. Louis star, regarded as the logical successor to Ty Cobb as the game's greatest all around player, has maintained a batting average of .400 or better since the start of the season, is a remarkable fielder, and perhaps the fastest player in the major leagues.

Sisler was awarded the title of best player for 1922 by a wide margin, according to the official announcement made by E. E. Sanborn, chairman of the American league trophy committee.

Hard Practice For Blue Eleven During Festival

Harder scrimmages have been the rule for the past two days for the gridiron aspirants of Janesville high school. Coach Warfield has directed the men at the fair grounds.

Practice Friday and Saturday will not be abated because of the harvest festival. Training scenes may be shifted to Fourth ward park. The lads will be given the usual time in mockisms, every hour of practice being valuable.

Announcement of the season's schedule is expected to be made next Monday. The first game of the year is put eight days away, Harvard, Ill., coming here on Sept. 30.

Bolles Enters Tennis Finals, Beating Huebel

By disposing of Al Huebel, "dark horse," Don Bolles advanced into the finals in the second annual city tennis tournament Thursday afternoon, the hardest fought match of the meet. Several times Huebel had a wide advantage, but Bolles overcame it. The set scores were 6-2, 8-6; 7-5, 6-2.

Huebel won his way into the semi-finals by disposing of Sam McKaig and Robert Cunningham, both good tennis players. Bolles beat Gene Rich, Dick O'Brien and M. Reuter.

The first set went to Huebel after Bolles tied at 2 all. Huebel took the next four games. Bolles and Huebel had a battle royal in the second set which went to deuce and to 8-6 when Bolles took the set. The third set also went to deuce. In this frame Huebel had an advantage of 5-3 with only another game needed to win. His opponent then took the next four games and the set 7-5. Huebel tied in the fourth set, which went to Bolles, 6-2.

The winner of the C. H. Traver-I. G. Miller match will play Bolles in the finale for the city championship. Miller and Traver play Friday afternoon.

VOICE OF THE PEOPLE

Editor Gazette:

Our attention has been called to a news item in your paper in reference to the Whitewater fire department taking part in a water fight at the Fall Festival this week. We regret indeed that the committee in charge has not succeeded in inducing Fire Chief Murphy to permit his department to take part in a water fight.

We believe a water fight is a properly contested furnished more real amusement to more people than almost any other attraction at a community affair, such as you are putting on.

It has been said that there is no comparison between a paid fire department such as Janesville has and a volunteer fire department such as there is in Whitewater; yet we have no apology to offer to Janesville, either in our ability to fight fires or to contest a water fight,—nor do we reflect on Fire Chief Murphy's men in either instance.

We regret the chief's conclusion that in the event Janesville and Whitewater put on a water fight, the latter had all to gain and nothing to lose, for this to us is an indication that a volunteer fire department possesses men of a fire fighter's consciousness in not fearing to get wet, which is the friend of all firemen in time of fire.

We feel free to say that Whitewater holds Janesville in the very highest regard and will regret indeed not having an opportunity to accept an invitation from Janesville to take part in your Festival. We realize at times fire department chiefs object to water fights—fearing ill effects on both hose and nozzles used in the contest. Permit us to say that in the event we schedule a water fight and we are extended an invitation as one of the contestants, in order to offset any danger of damage to equipment used by our men, we are prepared to furnish our own standard fire hose and nozzles.

We pride ourselves as firemen in accepting just as readily an invitation from any of our sister cities to take part in their jollifications as we would respond to their distress in time of fire.

DIDN'T LIKE U. S.; INTENDED FIANCEE SENT BACK HOME

[BY ASSOCIATED PRESS.]
New York. Miss Mary Dail, fiancee of a Frenchman, was sent back home, meanwhile trying to forget that she came from Bouvier, France, two weeks ago, to become the bride of her soldier hero, now Prof. Darbin Rowland of Depauw University, Green Castle, Ind.

Immigration officials said Prof. Rowland asked that their engagement be broken and that the fiancee be sent back home. The officials said they decided to let her safe return to France.

Prof. Rowland came from Green Castle to greet his fiancée, he explained, and the fiancee, who was undimmed, he said, "she saw nothing in America to admire, she nagged me about my country, grew sarcastic about it and turned up her nose at everything I did. I decided it would be a big mistake to make her my wife."

A meeting of the board of public works will be held at 2 p. m. Saturday. The board will consider the assessments for curb and gutter work on Belmont avenue to the south line of lot 42, Willow Grange addition, will be heard. No other business of importance is expected to be taken up.

DOUBT TAMPERING WITH DRY STATUTE
Anti-Saloon League Believes Severance Law Won't be Touched by Solons.

[BY ASSOCIATED PRESS.]
Madison. Tampering with the Severance prohibition law is not likely at the 1923 session of the Wisconsin legislature, the Anti-Saloon League believes. Their belief is borne out by statements of administration officials in both houses who say they will oppose any move to amend this enforcement statute enacted by the last session.

The republican platform is silent on prohibition for a state amendment in one plank which says that "the constitutional right of the people of Wisconsin to be secure in their persons, houses, papers and effects from unreasonable searches and seizures shall not be violated, and no warrants shall issue except upon probable cause supported by oath or affirmation, particularly describing the place to be searched and the persons or things to be seized."

A move to enact this provision of the platform into law would be tantamount to an expression of the feeling that the present law should be left unchanged, with prohibition a permanent issue in one session of the Wisconsin legislature.

Some attempt at repeal of the Severance law, or drastic amendment of its enforcement provisions, is looked for from Milwaukee legislators during the session. This is not expected to arise a serious issue unless it is thrown out into the limelight by factional division.

Beer Move Seen.
It is believed the principal prohibition fight will be over a resolution memorializing congress to amend and voided act to permit manufacture and sale of light wines and beer. Such a measure is looked for and legislative battle over its provisions anticipated.

There is a belief held by the drys and by leaders in both houses that the Severance law will be amended in the 1923 session unopposed. It is possible the leaders say that they are going to urge that the statute be left to itself without tampering.
